Notes: 1) This is the 20th year of Consumer Reports Top Picks list. Consumer Reports released its first list of Top Picks in the Annual Auto Issue, April 1997. 2) Consumer Reports has periodically changed its list of categories for Top Picks—dropping Affordable Family Sedan, for example, and adding Luxury Car. For that reason, you will see some blanks in this summary. 3) NA = Not Applicable—no Top Pick was named in that category for that year.
