Honda includes:
Acura

Nissan includes:
Infiniti

*Total number of models with current CR Test Ratings.

This list shows the number of models for each brand that CR has recommended for each Annual Auto issue, starting with 2005. Each model includes all available trim levels, engines, and body types. For Consumer Reports to Recommend a vehicle, it has to perform well in CR's tests, have at least average predicted reliability based on CR's latest subscriber survey, and have done adequately in independent crash and rollover testing, if tested.
